### **Private Boat Rack Space Allocation Policy**

MMCC guidelines for the management of private boat storage and rack allocation.

1. The Boat Manager and or the Club President are responsible for the management of private boat storage and rack allocation.
2. Allocated racks are on an annual basis, provided that membership is current.
3. Where possible a rack will be allocated for the storage of a private boat. However this is not an automatic right and will only be done subject to availability.
4. If at any time boat rack spaces are limited, a one kayak per financial member may need to be implemented. Subsequent boats can only be accommodated if space is available.
5. In the event all boat racks are occupied a boat allocation waiting list will be implemented.
6. If membership has expired (i.e. not renewed by the end of the current membership year), the previously allocated rack will be taken to be abandoned and therefore placed in the pool for allocation on a first-in basis, to renewed (or new) members. If the unfinancial member subsequently renews at a later date, they may subsequently be assigned a new rack, or go on a waiting list if none are available at that time.

7. Racks may be re-allocated at any time during the year, and kayaks moved to a new location at the sole discretion of the Boat Manager and or Club President. Members will be notified of the new rack allocation.
8. Regular users will be given priority for more accessible racks.
9. The Boat Manager with the President will have absolute discretion to decide on eligibility for and allocation of rack spaces.
10. Unfinancial boats may be moved within the clubhouse, or removed entirely and stored at a separate location, at the discretion of the Boat Manager or Club President.
11. If a member with a private boat does not intend to renew membership, they should endeavor to remove their boat from the rack.
12. Once the amount owed to the club in membership arrears exceeds the value of a boat, mmcc reserves the right to sell the boat in accordance with any applicable legislation, to recoup what is owed.
